

BUILDER COLLECTION™

Natural Wood Carriage Style Garage Doors

HÖRMANN

Builder Collection™

The Builder Collection has been uniquely engineered with the builder in mind. It has been designed to be a reasonably priced alternative to our full customized wood carriage style doors. This is a natural wood product that is insulated and has a polystyrene core. The window grid has been uniquely engineered for easy removal; for applying finish paint or just normal cleaning. A large selection of designs are available with standard sizes up to 18 feet wide and 9 feet high. All designs are available in stainable and paintable versions with your choice of either western red cedar or meranti mahogany overlay, both having a plywood face. Prime painting is also available for your convenience.

The Builder Collection is quality crafted by America's leading wood garage door manufacturer. The allure of natural wood combined with its beautiful styling will add curb appeal and value to your home.

DESIGNS

Designs shown are single car 2 panel doors, double car doors are 4 panels wide and look like 2 single car doors side by side.

Garage Door Replacement, A Great Investment!

According to **Remodeling Magazine's Cost vs. Value Annual Report**, year after year, a garage door replacement with upscale garage doors has continued to be one of the highest ROIs (*Return on Investment*) of all exterior remodeling projects.
