Help

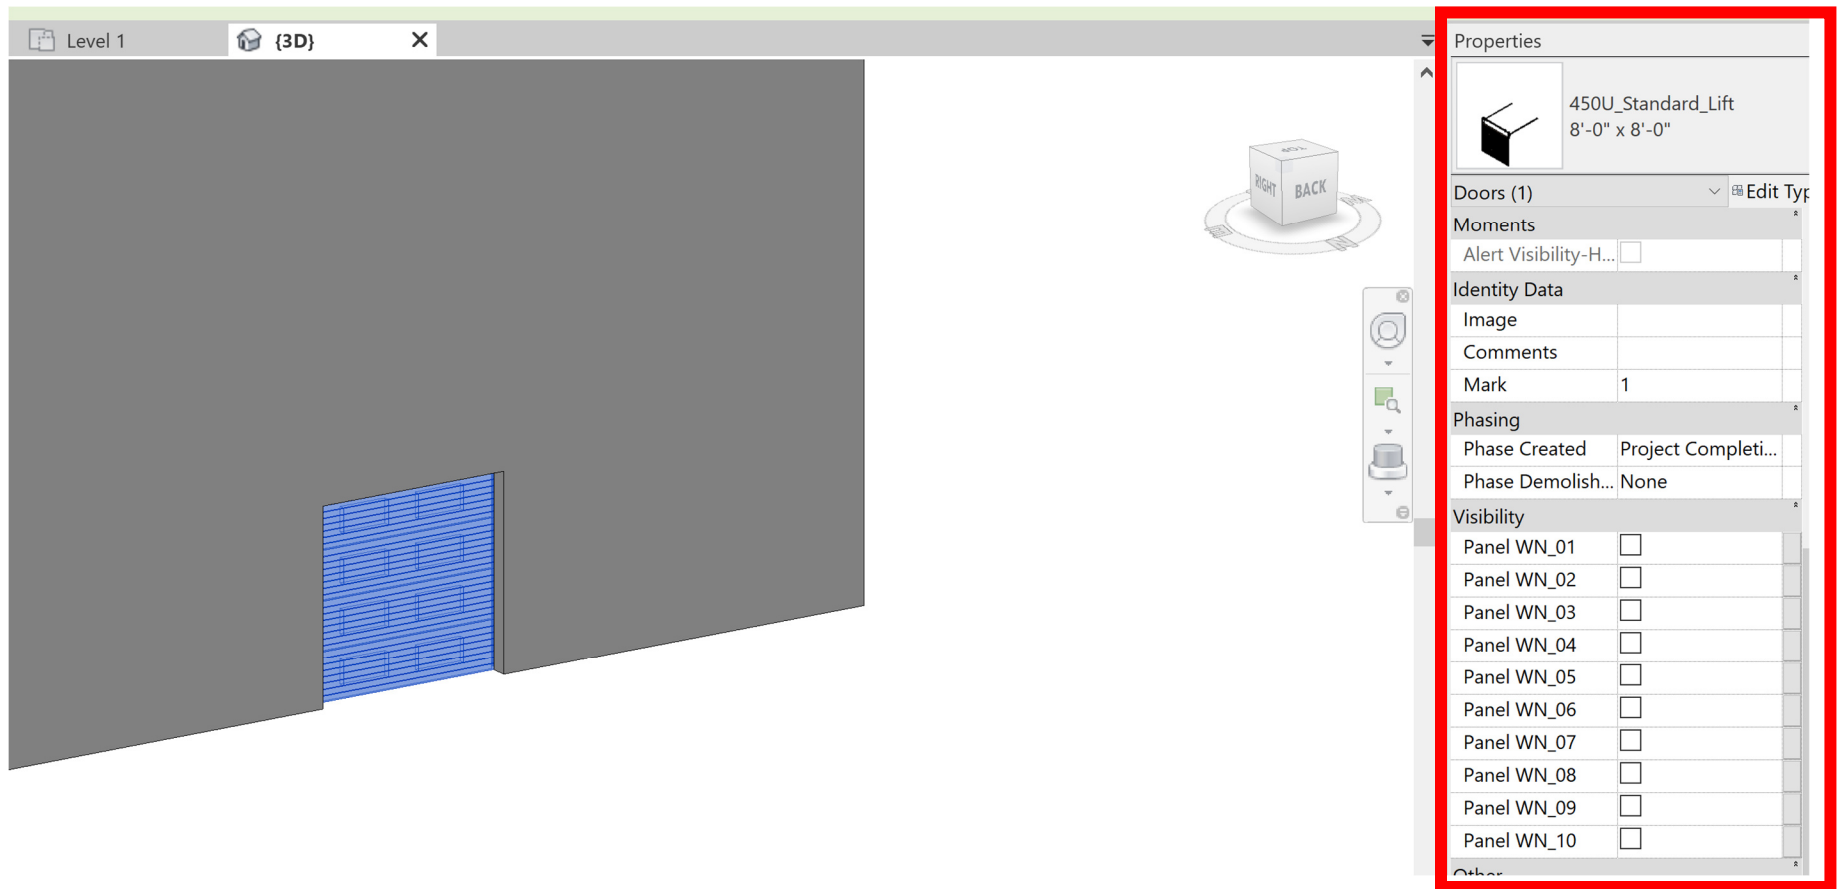

After selecting your style, a new window will appear with various door sizes. Select the size(s) you wish to use. You can hold the CTRL key and select multiple sizes.

Under the Architecture Tab, select the Door option.

Under the Properties you will see the doors you selected. This is where you select the door you want to place in your project.

After the door is placed, you can select it and see the options in the properties. Here you can select things like design options, windows, drum size, etc.
