Hörmann Introduces New Color Options for ProTech 2500 and ThermaTech 3400

As part of their plan for innovation and providing dealers more aesthetic options for their customers, in October 2024, Hörmann released new standard color offerings in the USA and Canada for the Pro Tech 2500 and Therma Tech 3400 product lines. The new standard steel colors are: Desert Tan, Teratone, and Hunter Green.

Along with this release, all four TIMBERLAST™ wood look color options are now available coast to coast: Golden Oak, Medium Oak (replaces Medium Woodgrain for Western markets), Walnut (replaces Dark Woodgrain for Western markets), and Rosewood. Until now, only sandwich products with woodgrain were available for Hörmann's Western US and Canada customers.

These updates greatly expand options on both pan and sandwich products for many customers coast to coast, adding a total of five new standard options to the sandwich line.
