6 Flush

SAFETY, DURABILITY, EFFICIENCY

Choose from six classy woodgrain textured panel designs – Country, Cottage, Shaker and more, with our Therma Tech 3500. The 2" thick panel, made with our 3-layer steel front and back construction and insulating polystyrene core, provides very good thermal efficiency (R-10.4 thermal rating). Unbeatable protection against the elements is achieved through our thermal break / tongue and groove section joints, which create a weathertight seal.

Tongue & Groove Section Joints **1**

Precisely designed thermally broken section joints and flexible joint seal reduce air infiltration and create weather tight enclosure.

Sandwich Construction **2**

3-layer steel front and back construction with insulating polystyrene core increases energy savings.

Panel Embossment **3**

Easy to clean woodgrain texture, galvanized and finish painted steel provide years of trouble-free performance and beauty.

Aluminum Retainer **4**

Hörmann minimizes floor corrosion by utilizing an aluminum bottom seal retainer that never rusts and is more durable than brittle plastic retainers.

Bottom Weather Seal **5**

Keeps out wind, rain, debris and other elements for added energy savings.
